CAREER OBJECTIVE

Electronics and Communication Engineering undergraduate with experience in Embedded Systems, Automotive Validation, Python Automation, IoT, and CAN communication. Seeking an entry-level role to contribute to embedded and automotive engineering projects while expanding technical expertise.

EDUCATION

B.E. Electronics and Communication Engineering, Adhiparasakthi Engineering College (2026)
CGPA: 7.89

INTERNSHIP EXPERIENCE

PRICOL LIMITED – Automotive Digital Cluster Validation Intern

- Improved validation efficiency by developing Python automation scripts for automotive digital cluster testing.
- Enhanced accuracy by automating CAN message decoding, log parsing, and signal verification.
- Generated automated validation reports and reduced manual effort through repeatable workflows.

PRICOL LIMITED – RFQ Technical Proposal & Hardware Design Intern

- Supported RFQ proposal preparation through requirement comparison and technical analysis.
- Assisted with hardware design learning and product development activities.

RETECH SOLUTIONS PVT. LTD. – Embedded Systems Intern

- Developed an ESP32-based traffic light control system using Embedded C and Arduino IDE.
- Simulated real-time traffic operations through programmed timing sequences and hardware interfacing.

PROJECTS

IoT-Based Wild Animal Intrusion Detection and Alert System

- Developed an IoT monitoring solution for detecting wild animal intrusions using sensors and image processing.
- Implemented real-time alerts and automated monitoring for agricultural safety.

CERTIFICATIONS

- Python for Data Science (NPTEL)
- Ethics in Engineering Practice (NPTEL)
- Art of Communication Workshop
- AI & IoT Bootcamp

SKILLS

- | | | |
|----------------|----------------------|----------------------------------|
| • Python | • Arduino | • IoT, Wokwi, MATLAB |
| • c (Basic) | • Embedded Systems | • Microsoft Office |
| • Java (Basic) | • CAN communication | • Pin Mapping in Microcontroller |
| | • Validation Testing | |
